

MR1957-1151

Serial Number: 10/032,505

Reply to Office Action dated 25 August 2005

**REMARKS**

This case has been carefully reviewed and analyzed in view of the Office Action dated 25 August 2005. Responsive to the rejections made in the Office Action, Claims 1 has been amended to clarify the combination of elements that form the invention of the Subject Patent Application and Claim 4 has been amended to change the dependency thereof. Additionally, Claims 2 and 3 have been cancelled by this Amendment.

In the Office Action, the Examiner objected to the drawings under 37 C.F.R. § 1.83(a), as the drawings must show every feature of the invention specified in the claims. The Stated that the reflector of Claim 2 must be shown or the feature cancelled from the claim.

Accordingly, Claim 2 has been cancelled by this amendment, thereby overcoming the objection to the drawings.

In the Office Action, the Examiner rejected Claim 1 under 35 U.S.C. § 102(e), as being anticipated by Katahira, U.S. Patent No. 6,667,811. Claim 2 was rejected under 35 U.S.C. § 103(a), as being unpatentable over Katahira in view of the admitted prior art. However, the Examiner kindly indicated that Claims 3-5 would be allowable if rewritten in independent form, including all of the limitations of the base claim and any intervening claims.

Accordingly, Claims 1 has been amended to incorporate the limitations of Claim 3 therein. Thus, Claim 3 has been effectively placed in independent form,

including all of the limitations of the base claim, Claim 1, and any intervening claims, which there were none. Thus, Claim 1 and the claims dependant thereon should now be allowable, as Claims 4 and 5 are now dependant upon an allowable base claim.

It is now believed that the subject Patent Application has been placed in condition for allowance, and such action is respectfully requested.

Respectfully submitted,
